Additional Terms and Conditions:

The parties acknowledge the Software and/or Software Maintenance listed above is being ordered by the Siemens Industry Software Limited ("SISW") Partner identified below for delivery to the Customer identified below.

Delivery

The Software term starts the date the Software is made available to the customer by SISW, unless noted otherwise herein.

For any hardware product, the delivery shall be effected to the Point of Delivery according to FCA (Incoterms 2010) provided that SISW shall not be obliged to clear the goods for export after handing over of the goods to the freight carrier. The clearance of the goods for export shall then be performed by the Customer.

SISW, in its sole discretion, reserves the right to accept or reject any LSDA. Once an LSDA for Software is accepted by SISW, delivery of the Software identified in the LSDA will occur when SISW makes the Software available to the Customer by means of electronic download from a website specified by SISW. Physical shipment of the media is SISW's option and will occur as an accommodation to the Customer or because certain elements of the Software are not available for electronic download. If a Customer's installation location resides in a taxing jurisdiction which does not apply a transactional tax (such as sales tax) to electronic deliveries only, and the Customer desires to avail itself of such provisions, the Customer must opt out of receiving physical shipments and execute an electronic delivery exception form, as specified by SISW, to arrange for electronic delivery only. The Software will be delivered subject to EXW (Incoterms 2010) for deliveries that occur entirely within the United States, Russia, China or India. All other Software will be delivered subject to DAP (Incoterms 2010).

SISW's obligations to fulfill this agreement is subject to the proviso that the fulfillment is not prevented by any impediments arising out of national and international foreign trade and customs requirements or any embargos (or other sanctions).

Validity:

Any software, hardware and/or maintenance, enhancement and support services (ME&S) provided to customer hereunder are subject to the terms and conditions of the Software license and services agreement entered into by the customer and SISW or its authorized distributor with respect to the applicable software/hardware. This quotation is valid only through the above expiration date, or, if not specified, for thirty (30) days. Any extension to this validity period must be confirmed in writing and signed by both parties. Customer acknowledges that renewal orders for ME&S shall be deemed accepted by the Customer by payment of any ME&S invoice issued as a result of this quotation, course of dealing between the parties or the provision of ME&S services following the automatic renewal date.
